Professional Summary

Frontend Developer with strong expertise in JavaScript, React.js, Tailwind CSS, and modern frontend development practices, focused on building responsive and interactive web applications. Experienced in creating reusable UI components, optimizing application performance, and developing automation workflows using APIs and modern tools. Refactored SaaS dashboard architecture by reducing over 1200 lines of code and improving UI component reusability by 40%, resulting in faster feature development and better maintainability.

Technical Skills

- **Frontend Development:** React.js, Tailwind CSS, Responsive Web Design, DOM Manipulation, Event Handling, Component-Based Architecture, React Hooks, Context API.
- **API & Integration:** REST API Integration, Fetch API, Axios, JSON Handling, Async JavaScript.
- **Automation & Tools:** n8n, AI Workflow Automation, Git, GitHub, VS Code, Browser DevTools.
- **Concepts:** State Management, LocalStorage, Reusable UI Components, JavaScript Debugging, Client-Side Rendering, Performance Optimization.

Projects

Veloria SaaS Productivity Dashboard2026

Developed a premium SaaS style productivity dashboard featuring task management, finance analytics, user personalization, authentication simulation, and persistent client side state management with a fully responsive modern UI architecture.

- Simulated real world multi user productivity workflows with 20+ active test users during development and usability testing.
- Built modular dashboard widgets for productivity tracking, revenue insights, task analytics, and workflow management.
- Implemented LocalStorage based persistence for user preferences, authentication state, theme customization, and task data management.

Technologies: HTML5, CSS3, JavaScript, LocalStorage, Responsive Design.

KRAFT — Visual Interaction Engine2026

Developed a high-fidelity state-driven visual interaction engine inspired by modern creative tools, featuring a modular workspace architecture, advanced canvas interactions, and Neo-Brutalist UI design. **Currently utilized by 50+ active users** for design prototyping and workflow visualization.

- Built an interactive canvas-based workspace with dynamic layering, smart alignment guides, and real-time state management using Zustand.
- Implemented a scalable frontend architecture with modular React components, achieving a 30% improvement in component reusability.
- Designed an advanced UI/UX system featuring responsive layouts, custom design tokens, and persistent workspace settings.
- Integrated a high-performance asset management system with icon libraries, typography engines, and local persistence.

Technologies: React.js, Zustand, Tailwind CSS, Lucide Icons, LocalStorage.

Professional Experience

Customer IT Support ExecutiveMay 2025 – Feb 2026

Venturesathi Pvt LtdIndia

- Provided technical support to 100+ customers daily via chat and email, ensuring smooth issue resolution and customer satisfaction.
- Maintained approximately 98 percent customer satisfaction by delivering timely and accurate troubleshooting solutions.
- Collaborated with cross-functional teams to identify and resolve recurring customer pain points, contributing to a 15% improvement in overall customer experience scores and positive feedback.
- Assisted users with account, payment, and technical platform queries, improving overall service efficiency.

Education

Bachelor of Computer Applications (BCA)2022 – 2025

Sambalpur UniversityOdisha, India

Senior Secondary Education (12th)2019 – 2021

Sri Aurobindo School, RourkelaOdisha, India

Secondary Education (10th)2019

Sri Aurobindo School, RourkelaOdisha, India

Additional Information

- Comfortable working remote or hybrid environments
- Strong written English communication
- Actively transitioning toward full stack development
- Focused on building practical projects and continuously improving development skills.
